REPORT

OF THE

COMMITTEE OF VISITORS

OF THE

County Lunatic Asylum at Prestwich,

TO THE

ADJOURNED ANNUAL SESSION HELD AT PRESTON ON THURSDAY, THE 28TH DAY OF DECEMBER, 1865.

To Her Majesty's Justices of the Peace for the County of Lancaster, in Annual General Session assembled.

County Lunatic Asylum, Prestwich,
27th December, 1865.

The Committee of Visitors of the County Lunatic Asylum at Prestwich present the following Report to the Quarter Session, in accordance with the provisions of the Act 16th and 17th Vict cap. 97.

During the last year 184 Males and 166 Females have been admitted into the Asylum; 113 Males and 100 Females have been discharged therefrom, of whom 57 Males and 75 Females were cured, and 68 Males and 55 Females have died.

The Asylum is capable of accommodating 1,000 patients, and on this day there are 963 on the books of the Establishment.

The general health of the patients has been good. In the month of April two Attendants were attacked with fever, and four Patients with small pox. One of the Attendants died, the other recovered, and the small pox fortunately passed away without any fatal results. The Committee are strongly impressed with the importance of providing a detached Hospital for contagious and infectious diseases.

During the earlier portion of the year several patients from the Salop and Montgomery Counties Lunatic Asylum were maintained in this Asylum, under contract, at the weekly charge of 12s. 3d. each. The weekly charge for the maintenance of patients belonging to other Unions or Townships not within the County of Lancaster has been 14s., whilst that for patients belonging to Unions or Townships within the County has been 7s. 7d. throughout the year.

Your Committee have arranged, as far as practicable, to discharge all accounts connected with the Asylum monthly, instead of quarterly as heretofore, and the Guardians of most of the Unions within the Hundred, wishful to meet the views of the Visitors on this point, have consented to pay monthly for the maintenance of patients belonging to their respective Unions. This arrangement, it is believed, will enable the Committee to obtain provisions and other necessaries on more favourable terms.

No change has taken place among the superior Officers of the Asylum, excepting Mr. Ley, one of the Assistant Medical

Officers, who has recently been appointed the Superintendent of the Salop and Montgomery Counties Lunatic Asylum. Dr. Edward Robert Barker, the Assistant Medical Officer of the North Wales Counties Lunatic Asylum, has been appointed to supply the vacancy occasioned by Mr. Ley's resignation.

The Buildings are in a satisfactory state. Considerable improvements have been made in No. 4 Male and Female Wards, by which greater facilities are afforded for the daily employment of the more excited class of patients, to which those Wards are appropriated, as in picking hair and coir, and making and repairing mattresses, and better means secured of separating that from the other classes of patients in the Asylum.

J. SHEPHERD BIRLEY,

Chairman.

REPORT

OF THE

MEDICAL SUPERINTENDENT.

County Asylum, Prestwich,

16*th February*, 1866.

GENTLEMEN,

I have the honour to submit the following Report, accompanying which are the ordinary Statistical Tables.

On the 1st of January, 1865, the Asylum contained 950 patients—464 Men and 486 Women. The admissions during the year amounted to 353; the total number under care and treatment 1303. Of these—

136 have been discharged, recovered.		
12	ditto	relieved.
68	ditto	unimproved.
2 escaped.		
123 have died.		

The recoveries have been in the proportion of 38·52 per cent. upon the admissions; the deaths 9·44 on the total number under treatment.

The causes of death have been chiefly general paralysis, epilepsy, and pulmonary consumption.

One of the Male patients committed suicide by suspending himself to a shutter in his bedroom.

The additions to the Male and Female Wards (No. 4) which you sanctioned in the early part of the year, have been proceeded with. Those on the Men's side were completed towards the close of the summer, since which time they have been in use, and have contributed greatly to the comfort of those excited patients who occupy that ward. The large room has enabled us to employ many patients who had previously led a life of idleness. This room has also been appropriated to the use of the Male Attendants for their evening amusements.

The additions on the Women's side, although not quite finished, have for some time been accessible to the Female patients. The rooms are spacious and lofty, and are well adapted to the purposes for which they were designed.

The Airing Grounds attached to these Wards have been re-modelled, broad asphalted walks having been substituted for the narrow gravel footpaths, and a light open paling for the brick walls which previously enclosed them. Pleasant lawns, surrounded by shrubs, have also been formed in front of the rooms.

In the month of April several of the patients and two of the Male Attendants were simultaneously attacked with small pox and typhus fever, and a difficulty arose as to where the former (who were the subjects of small pox) should be placed so as to

isolate them from the rest of the inmates. A workshop under the hayloft was converted into a temporary hospital for the men, and the engineer's cottage made available for the women, the engineer and his family being provided with a residence for the time being in the neighbourhood. Happily the disease did not spread. The warning, however, I respectfully submit, should not be neglected, but some permanent provision made before long for such cases in the event of another visitation, and possibly in a more aggravated form. I think the subject of such importance that I feel it unnecessary to make any apology for again bringing it under your notice.

The Commissioners in Lunacy visited the Asylum in August, when they made the following report:—

"*Prestwich County Asylum,*
"*23rd August,* 1865.

"We have yesterday and this day visited the Asylum, inspected all its Wards, Offices, and Premises, and seen the whole of the patients, excepting two absent on trial.

"The changes in the patients since the 11th of August, 1864, the date of the last Commissioners' visit, and their present numbers, are shown by the following table:—

	M.	F.	TOT.
Admitted	197	192	389
Discharged	103	129	232
,, of whom recovered	76	90	166
Died	67	63	130
Present Number on Books	498	498	996
,, of whom absent on trial	2	—	2

"The assigned causes of death were as follows:—

	M.	F.	TOT,
Phthsis	5	20	25
Exhaustion after Mania	9	6	15
General Paralysis	34	15	49
Cerebral Disease	—	2	2
Epilepsy	8	4	12
Suicide by cutting throat	—	1	1
Other Causes	11	15	26
Total	67	63	130

"Inquests have been held, for special reasons, in three cases, besides the suicide. In one, that of a Male Patient, the verdict was "Died from general paralysis and gangrenous inflammation of the leg." The *post-mortem* examination disclosed the fracture of two ribs and the sternum, which had been partially discovered during life by Mr. Ley, the Assistant Medical Officer. The injuries are believed to have been occasioned by kicks from

another Patient, but the circumstances are about to be specially investigated by Mr. Holland, whom we have requested to communicate to our Board the result of his enquiry.

"The remaining two Inquests were upon the bodies of two old women, who died of senile decay, but both of whom had sustained accidental fracture of the thigh bone.

"The sanitary condition of the Asylum appears, at present, to be good, the Patients last registered as under medical treatment being 11 in the Male Division, and 20 in the Female.

"The average numbers attending the Church in the grounds, a handsome structure now completed, are as follows :—

	M.	F.	TOT.
Sundays	310	280	590
In Recreation Hall and Work Room.			
Week Days	200	210	410

"The Holy Communion is administered monthly, when about six or seven Patients usually partake of it.

"In reference to the subject of Religious Services we suggest, for the consideration of the Committee of Visitors, the propriety of affording facilities, and making some special arrangement, for the performance by Roman Catholic Priests of the services of their Church, to which a large number of the Patients belong.

"The Ward Returns relative to employment show the following results:—

MALES.

Farm and Grounds	90
Trades	75
Others	75
Total	240

FEMALES.

Needlework, &c.	140
Laundry, &c.	45
Others	115
Total	300

"According to the Medical Journal the numbers of Patients secluded, and instances of seclusion, continue substantially the same as last reported. At the time of our first visit five men and three women were in seclusion for ordinary reasons, and two men and one woman suffering from itch were locked into their rooms for isolation.

"We have to report most favourably of the general cleanliness and good order of the several Day-rooms, Dormitories, and Corridors, and the Beds and Bedding throughout the Asylum.

"The Wards are rendered cheerful and comfortable in aspect

by an ample supply of flowering and other plants, various decorations and furniture of a domestic kind.

"The Patients, with a few exceptions on the Female side, were quiet and orderly, and their personal condition, as to dress and otherwise, was generally very satisfactory.

"The principal improvements since the last visit have been as follows:—

"1.—The formation of two cheerful Corridors, or Ambulatories, between Wards Nos. 1 and 5 in the respective Divisions opening into the adjoining Airing Courts.

"2.—The means of access for the Superintendent to No. 1 Ward on each side by a light corridor of communication with a glazed roof.

"3.—The construction of new external Bath-rooms, Lavatories, and Water Closets in connection with Wards 1, 2, and 3 in both Divisions.

"4.—The addition, at the extremities of Wards 4, Male and Female respectively, of two large Day-rooms, that in the Male Division being complete and nearly ready for occupation and that in the Female Division in course of erection.

"5.—The completion of the Church and surrounding grounds, which are admirably laid out and well kept.

"6.—The paths in No. 6 Female Airing Ground asphalted.

"7.—The substitution for the boundary walls of the Airing Court, No. 4, on each side, of a neat open wooden paling.

"8.—The asphalting of the Drying Ground.

"The weekly charges for Lancashire and out-county Patients, respectively, are as before, 7s. 7d. and 12s. 3d.

"The Asylum will not accommodate more than 500 Patients of each sex. Consequently, the two Male Patients absent on leave being deemed as in the Asylum, there are at present only two vacant beds on each side. However, pursuant to mutual notices, by the end of the present month, the Shropshire Patients, 44 in number—36 Males and 8 Females—will be removed.

"The general condition and management of the Asylum continue to be very creditable to the Medical and other Officers.

(Signed) "R. W. S. LUTWIDGE,
"ROBERT NAIRNE,
"*Commissioners in Lunacy.*"

The average weekly cost per patient during the year has been 7s. 10¾d.

I have the honour to remain,
Gentlemen,
Your faithful servant,
J. HOLLAND, F.R.C.S.,
Superintendent.

To the Committe of Visitors of the
County Asylum, Prestwich.

	8	7·13

For 972 patients, average Cost per head per week, 8s. 7·13d.

N.B.—The amount shown above as the average cost, viz., 8s. 7·13d., is caused by the adoption, by the Committee, of the system of paying the Tradesmen's Accounts and Servants' Wages monthly instead of quarterly, which has caused, so far as regards these payments, fourteen months' expenses to be included in the year's accounts. The actual cost during the above period has been 7s. 10·72d. per head per week.
